

1

Pre-Rental Inspection: The owner and renter must complete a pre-inspection of the vessel (and trailer, if applicable) prior to the start of the rental. This inspection requires: identification verification, documentation of any existing damages, and a signed agreement dictating length of rental period and fuel policy.

2

Post-Rental Inspection: The owner and renter must complete a post-inspection following the rental period. During this inspection, both parties should identify any items missing from the boat, damages that occurred during the rental, and document the amount of fuel used. All incidents should be reported, however minor. This includes, but is not limited to: collisions, injuries, and damage to third party property.

3

Any missing items or damages need to be reported within 48 hours of the rental concluding to BoatUS by calling **1-855-408-BOAT**. Please send an email to support@boatbound.co in order for the renter's security deposit to be held.

For a full list of rental terms, please refer to your ***Rental Agreement***.
